

# Spirituality Outreach Program

@ APOK

## Vision

Our vision is to reach out in the mission of Christ to the section of the community that considers themselves to be Spiritual But Not Religious (SBNR).

## Mission

We will develop a culture and events in the church that will practice spirituality.

## What's In A Name?

For a variety of reasons, many people "turn off" and are less receptive to outreach when they know the church is running an event. This is particularly true for generations that follow the Baby Boomers. One of the ways that this can be dealt with is by having some of our activities auspiced under a banner that is not explicitly Christian. Through this Banner, relationships will be developed; trust will be built up, spiritual listening will be fostered so that they might attend to the subtle prompting of The Holy Spirit. In due course and it may be the case that they will be open to events that will explicitly explain the Christian Faith to them. These events that explain the faith would come under the banner of The Parish or the respective church (St. James and St. Mark's).
